## Who We Are

**Cottaquilla Copper LLP** began in 2006 near the largest center of traditional copper work in the New World. We are a small company run by its 4 owners, two of whom live in Mexico and 2 of whom live in the United States.

**Cottaquilla Copper LLP** sell 2 things- Quality Copper Products for home and business and Quality Customer Service. We guarantee the fine quality of our products and when you want more information you speak directly to us, the owners of the company. We have personally chosen to maintain a high standard of quality in our products even though we know that price is important. We work hard to provide our customers with excellent prices without sacrificing product quality or our commitment to personal customer service and work ethic. We are proud of the quality of our hammered copper products and service and of the copper artisans who continually refine their work to meet our standards. Because our production manager lives in Mexico we can work very closely with you and the coppersmith on every detail of an order that leaves the shop. If a copper product doesn't meet our standards for quality and beauty, then it is reworked until it does. We are as proud of our service as of the quality of our copper products.

## Our Patinas

All of our patinas are heat raised. How the patinas are created is the secret of every shop. We always wax our products as a final step. However, the customer can request to leave off the wax. The wax tends to better protect the patina but it also retards the antibacterial quality. The choice is yours.

Our standard patinas are somber and old natural. Our premium patinas, which require more time to produce, are at an added cost.

## Table Bases

Cottaquilla Copper offers hand forged iron bases and manufactured iron bases for use with our table tops for home, restaurant, and bar. We have selected a variety of bases to fit small, medium and large table tops as well as round, square, rectangular and oval shapes. Most come in sizes for **Dining, Bar, Bistro, Counter, Coffee, Console, and End** tables. Some of our selections have matching **chairs and stools**. Our standard patina is Black. Our premium patinas, at an additional cost, are Aged Rust, Aged Bronze, and Aged Pewter. For specific information on each style, please contact us. Please note that we do not sell bases alone.

Custom Copper Wall Plate

## **Copper Product Care and Maintenance**

Copper products are easy to maintain. Simply use a mild soap and water and a soft cloth for drying. Since our products are hand-hammered with a natural finish, do not use abrasive cleaners, harsh chemicals or steel wool pads as these will scratch the surface and affect the patina of your product. Copper has antibacterial qualities so there is no need to disinfect the product with harsh chemicals or abrasive cleaners. Acidic foods can affect the patina leaving a shiny spot if allowed to sit for prolonged periods of time on your product. Should an acidic food such as tomato or citrus fruit affect the patina, there is no need to worry, as the original patina will return in time and with use. The BEST remedy is to leave the area free of wax or oil so that air can naturally re-oxidize the product. The finish of your product will gradually change over time, as this is the nature of copper. To protect the original patina and to aid in water runoff, you can use a paste wax product such as Johnson's Paste Wax. We recommend that you use a PASTE wax or an oil wax that has no citric element. Rub the wax into your product and then buff well. Remember that your copper product is a "living" product. It is only natural that it changes over time. Be aware that all copper products have a finish that is by nature of the oxidation process uneven and variable in color and pattern. This gives your product its beauty and charm. It does not constitute a defect in product.

We hope you will love your copper product from Cottaquilla Copper LLP and appreciate the ease of care and maintenance. Should you have any further questions regarding the care and maintenance of your copper product, please do not hesitate to contact us.

## WHOLESALE GUARANTEE POLICY

Cottaquilla Copper LLP does not directly produce copper items or iron bases. We work with several very fine artisan shops. We have a great deal of confidence in the products we sell. Further, we examine every piece, in sunlight, prior to accepting and shipping it. Thus, we are certain of the quality of what we send. On all wholesale purchases, to clients who will re-sell the item, we do not accept extended responsibility for items that will go to other parties. Please open the item when it arrives. If it is damaged in shipment, we will replace it. Any claims about damage or quality must be made within five days.

### WARRANTY

Cottaquilla Copper LLP will replace without charge any defective product. Shiny spots caused by acidic foods left on copperware and variations in color and pattern of the patina DO NOT constitute product defects. Due to the nature of copper, the coppersmith cannot control all the colors and patterns of the patina. We reserve the right to inspect a product before replacing it or before issuing a refund.

We also reserve the right to make repair suggestions to be carried out by the customer prior to issuing a replacement or refund. We require that photographs be emailed to us to help us determine outcomes. Cottaquilla Copper LLP will not be responsible for any labor charges. This warranty will apply for a 60 day period from the date of receipt and can only be exercised by the original owner. The copper surfaces must not have been subjected to abuse, and must have been cleaned and used only as recommended. Other than this written warranty, no other warranty for our products, spoken or written, shall apply.

(Please call us at (866) 216-1595, (214) 935-9108 or (480) 639-3796 for clarification about any of these policies. If requested, we will give you a written reply.)
